Our corporate governance philosophy and practices are aligned with the four governance outcomes advocated by King IV, namely:

ETHICAL CULTURE
An ethical culture builds support structures that underpin our core purpose, values and strategy.
- To ensure that we maintain an ethical culture, governance structures are regularly reviewed to align with best practice and reflect regulatory changes.
- The Board reviewed, revised and approved the Group's Code of Ethical Conduct during the 2019 financial period, which outlines the key behaviours and actions expected by employees, suppliers and business partners. A Group-wide ethics communications campaign will be rolled out in the upcoming year.
- The corporate governance charter was reviewed and updated.

EFFECTIVE CONTROL
The Group's governance and compliance framework is built on the principles of accountability, transparency, ethical management and fairness.
- Areas of governance are delegated to the Group's various committees. Read more from page 20.
- The Board's delegation of authority within its governance framework contributes to role clarity and the effective exercise of responsibilities across the Group's various committees and within the broader business. Read more from page 6.
- The Group's corporate governance structure is regularly reviewed to ensure that the Board exercises effective and ethical leadership, conducts its affairs as a good corporate citizen and takes appropriate decisions to ensure the sustainability of operations.
- The Board annually conducts an evaluation of its contribution to the Group as a whole as well as the individual performance of each director. Read more from page 8.

LEGITIMACY
The Board retains overall responsibility for the concept of integrated thinking encapsulated in King IV, which underpins corporate citizenship, stakeholder inclusivity, sustainable development and integrated reporting.
- The Board ensures that the reports issued by the Group enable stakeholders to make informed assessments of its performance, and its longer-term prospects.
- The Board is aware of the King IV principle of having an arms-length relationship with the Company Secretary, and has created an environment in which the Company Secretary is able to ensure full adherence to Board procedures and relevant regulations. The Company Secretary is not involved in an executive capacity on the boards of the various companies in the Group.

GOOD PERFORMANCE
There are well-entrenched structures within the Group to ensure that proper assurance and oversight are given to strategic and operational performance.
- The Board undertook a number of discussions during the year related to strategy, performance, governance and risk management. The details of the most material issues under discussion by the Board, as well as the decisions and actions arising, are unpacked in more detail later on in this overview.
OUR GOVERNANCE

STRUCTURE

The Board is confident that the Group’s governance framework, supported by its Board committees and related administrative structures and compliance processes, contributes to sustainable value creation by driving:

• Accountability to stakeholders
• Sound leadership and effective decision-making
• Strong risk management and risk mitigation
• Comprehensive and transparent integrated reporting
• Remuneration policies that build a winning team

The Group’s governance framework is regularly reviewed to ensure that the Board exercises effective and ethical leadership, conducts its affairs as a good corporate citizen and takes appropriate decisions to ensure the long-term sustainability of the business.

BOARD COMMITTEES

The Board is supported by the executive, audit, risk and compliance, remuneration, nominations, corporate finance, corporate governance, and social and ethics committees. The Board’s delegation of authority to these committees contributes to role clarity and the effective exercise of authority and responsibilities within the broader Group.

The role and responsibilities of each committee are set out in the Board’s corporate governance charter, available on our website at www.pnp.co.za. The charter is reviewed annually to ensure that the committee mandates remain current and effective and that the requirements of King IV are met. Each committee considers its effectiveness by way of a review of its activities against the approved terms of reference in line with their delegated powers and authority.

The Executive is tasked with implementing the strategy of the Board. It serves as the Chief Operating Decision Maker (CODM) of the Group, and manages the day to day operations of the Group, to ensure sustainable value creation for all stakeholders.

• Available for all ad hoc meetings
• Resigned from committee during the year
• Appointed to committee during the year
• Independent non-executive director

Together with the Board, all committees are satisfied that they have carried out their responsibilities during the period.
BOARD COMPOSITION

Our directors are strong-minded individuals of integrity who are successful and experienced professionals in their respective fields. The Group has actively sought to appoint business people to its Board, looking for individuals who play an active role in business, are in a position to offer commercial, legal and regulatory knowledge to the Board, and add value through wisdom, practical experience and business acumen.

The non-executive directors are diverse in their academic qualifications, business experience, gender and race, resulting in a balanced Board. Read more from page 12.

As our Chairman is not considered independent, Hugh Herman was appointed as lead independent non-executive director. Read more under “Controlling shareholder representation on the Board” below.

The Executive committee (refer to page 7 for further information) performs the Chief Operating Decision Maker (CODM) role within the Group. The CODM comprises Richard Brasher (Chief Executive Officer), Balie Jacobs (Chief Finance Officer) and Richard van Harenburg (Chief Information Officer). They are tasked with the day-to-day executive management of the Group. Suzanne Ackerman-Berman and Jonathan Ackerman perform valuable ancillary executive roles alongside the Executive, focused on corporate social investment, transformation and customer relations.

The Board is satisfied that its balanced composition reflects an appropriate mix of knowledge, skills, experience, diversity and independence.

The above graph indicates the number of directors on the Board who possess the relevant sector experience.

The Group has a controlling shareholder, Ackerman Investment Holdings Proprietary Limited. The Chairman (Garth Ackerman), one non-executive director (David Robins) and two executive directors (Suzanne Ackerman-Berman and Jonathan Ackerman) were nominated as representatives of the controlling shareholder, and were elected by shareholders to the Board. All are members of the Ackerman family and are not considered independent by virtue of their indirect shareholdings in the Company. Between them they have over 84 years’ experience in the Group. Their wealth of retail knowledge assists the Group in making decisions for the benefit of all stakeholders. To guard against bias, the Board has a conflict of interest policy and is satisfied that any potential conflict is appropriately managed and that advice is independent of the controlling shareholder.

All directors receive regular briefings on changes in the Group’s consumer and competitive environment, including relevant updates on regularly complicating factors which focus on the material opportunities and risks facing the Group that could impact on successful execution of the Group’s long-term plan.

A competitive advantage for the Board

The Board has broad local and international retail experience. We see this as a strong competitive advantage and a unique strength.

Board development focus areas for 2020

Climate change, security and the effectiveness of information technology, and supply chain logistics are multi-faceted aspects of our business that could have a broad impact on our operational performance and our ability to create sustainable value over the longer term. The Board will continue to build its proficiency in these areas, supported by a skilled management team.

CONTROLLING SHAREHOLDER REPRESENTATION ON THE BOARD

The Group has a controlling shareholder, Ackerman Investment Holdings Proprietary Limited. The Chairman (Garth Ackerman), one non-executive director (David Robins) and two executive directors (Suzanne Ackerman-Berman and Jonathan Ackerman) were nominated as representatives of the controlling shareholder, and were elected by shareholders to the Board. All are members of the Ackerman family and are not considered independent by virtue of their indirect shareholdings in the Company. Between them they have over 84 years’ experience in the Group. Their wealth of retail knowledge assists the Group in making decisions for the benefit of all stakeholders. To guard against bias, the Board has a conflict of interest policy and is satisfied that any potential conflict is appropriately managed and that advice is independent of the controlling shareholder.

All directors regularly declare their directorships and commercial interests to the Board. Transparency of commercial interests ensures that directors can be seen to be free from any business or other relationship that may interfere materially with any director’s capacity to act in an independent manner.

DIRECTOR APPOINTMENT AND ROTATION

A third of non-executive directors resign at each annual general meeting.

This enables shareholders to hold directors to account and to appoint directors to the Board who shareholders believe will ensure long-term sustainable value creation for all stakeholders.

When filling vacancies, the Board seeks and appoints qualified individuals who reflect a diverse range of skills and professional backgrounds and who represent the gender, racial and ethnic diversity of the communities we serve. This is guided by the Group’s gender and race diversity policies.

The Board has achieved its gender and race diversity targets.

OUR GOVERNANCE

INDEPENDENCE OF NON-EXECUTIVE DIRECTORS

At the end of each term of office, whether one year or three years, the director and the Chairman jointly evaluate directors’ independence.

We consider factors such as:

• The director’s involvement with other companies
• External directorships held
• Relationships with material suppliers and competitors
• Material contracts with the Group, if any
• Whether the director had been employed by the Group in an executive capacity during the preceding three years
• Whether the director’s fees represented a material part (10% or more) of their wealth or income

If so agreed, the director will be nominated for re-election by shareholders at the Company’s annual general meeting.

DIRECTOR TENURE

King IV does not consider the length of a non-executive director’s term in office as a determinant of independence. However, the Group’s policy remains that all independent non-executive directors who have served on the Board for more than nine years retire by rotation at the end of every year, instead of the standard three-year term of office.

At least 25% of our Board should comprise women.

At least 25% of our Board should comprise South African citizens who are African, coloured or Indian.

GENDER DIVERSITY – %

RACIAL DIVERSITY – %

The Board has established a good balance between the experience of long-standing directors and the fresh insights from more recently appointed directors. Our long-standing non-executive directors are highly respected in the industry, and play an important role at Board level. They provide the Board with valuable insight and perspective across the South African economic environment, and more particularly across the retail, property and financial sectors. We believe our longer-serving directors continue to act with objectivity and integrity. The Board is strengthened by the depth of our experience and their commitment to robust and meaningful debate. The Board assesses its composition and its performance on an annual basis, and where it is felt that the Board needs to increase its independence, its skill and experience in any way, the appropriate changes are made.
WHAT THE BOARD FOCUSED ON DURING THE YEAR

The directors ensure that the Group is managed in a transparent, equitable and responsible manner for the benefit of all its stakeholders. The Board appreciates that the strength of its strategy, the identification of material issues, the effectiveness of its risk management, its commitment to social and environmental sustainability and its financial performance are all inseparable elements of long-term value creation. Directors engage in rigorous and informed debate with the aim of promoting direction, governance and effective leadership of the Group. Decisions are made by consensus. All Board members are conscious of their obligation to act with integrity and as representatives of all our stakeholders.

The Board supports the maturity approach, which emphasises integrated reporting based on the issues, risks and opportunities that can have a material impact on the sustainable performance of the Group over the short, medium and longer term. It ensures that the reports issued by the Group enable stakeholders to make informed assessments of its performance and its longer prospects.

The most material issues under consideration included:

**DISCUSSIONS, DECISIONS AND ACTIONS UNDERTAKEN BY THE BOARD DURING THE YEAR TO PROTECT AND CREATE VALUE FOR OUR STAKEHOLDERS**

**STRATEGY AND PERFORMANCE**

**ENSURING TRANSPARENT FINANCIAL REPORTING**

The Group follows a 52-week retail financial calendar, which requires the inclusion of an additional week every six years. In light of the adoption of the retail financial calendar six years ago, we decided to add a 53rd week to the 2019 financial period.

We monitored the introduction of IFRS 9 and 15, accounting standards that revisited the recognition and measurement of financial instruments and the measurement, classification and disclosure of revenue from contracts with customers. IFRS 9 and 15 did not materially impact on historical profitability and growth trends.

**MONITORING THE IMPACT OF THE VOLUNTARY SEVERANCE PROGRAMME**

In the prior year, we adopted a voluntary severance programme (VSP) to remove roles and functions that were no longer required. Any savings achieved in labour costs were reinvested to allow the Company to further expand and create new jobs. We closely monitored the impact of the VSP in the current financial year to ensure that the aims were met. During the 2019 financial period, 4,675 new jobs were created in the 51 net new stores opened across all brands and formats.

**ENHANCING OUR CUSTOMER OFFER**

In the prior year, the loyalty programme was modernised. Our belief that the loyalty programme remains relevant and adds value to our customers was reinforced by it being voted best loyalty programme for the 6th year in a row investing in prices for customers continues to be a focus for the Board.

**REALIGNING COMMITTEE MEMBERSHIP**

Committee membership was realigned to ensure that our non-executive directors were best placed to make a contribution to the various Board committees.

**CONSUMER AND COMPETITIVE ENVIRONMENT**

The Board assessed the effectiveness of Group strategy in responding to changing consumer needs, with a focus on finding growth in a tough economic climate. The Board monitored the management team’s efforts to improve the cost effectiveness and efficiency of the business. Management has invested substantially in our customer offer, and effectively driven market-leading volume growth. The Board continues to monitor the impact of the increasing difficult economic environment in South Africa on consumer confidence and consumer spend.

**PERFORMANCE OF OUR REST OF AFRICA SEGMENT**

The Board focused on Group operations outside South Africa to ensure tight management during tough economic times. Our Zambian team committed to and delivered strong cost discipline and working capital management to mitigate the impact of the low-growth environment. Developments in Zimbabwe were closely monitored in light of economic uncertainty and currency volatility, in the region leading to inflationary pressures and social unrest. TM Supermarkets delivered a strong trade performance notwithstanding the difficult economic backdrop, and our financial reporting aimed to provide stakeholders with clear information on the performance of the business and the impact of currency devaluation on the Group result. The Board is committed to a prudent approach to expansion in Nigeria, without putting the core South African operation at undue risk. The Group plans to open its first store in Nigeria in 2020.

**EFFECTIVENESS OF OUR PROCUREMENT AND DISTRIBUTION CHANNEL**

The Board assesses the effectiveness and efficiency of the Group’s centralised supply chain on a regular basis. This year the Board agreed to additional capacity for Pick n Pay in KwaZulu-Natal and for Boxer in Gauteng. The Board will continue to assess the need for an additional Pick n Pay facility to supplement its Longmeadow distribution centre in Gauteng. Stability of labour relations across the supply chain remains a key risk, and is closely monitored by the Board.

**GOVERNANCE AND RISK MANAGEMENT**

**MONITORING STATUTORY DEVELOPMENTS**

We monitored statutory developments, including the proposed amendments to the Competition Act, No 89 of 1998, as amended, and the Companies Act, No 71 of 2008, as amended. While the Amendment Bill to the Competition Act was signed into law on 13 February 2019, at the time of writing amended draft regulations had not yet been published for comment. The impact of the government’s intention to use the amended Competition Act as an instrument of policy in addressing the skewed ownership profile of the Group’s long-standing fair and responsible remuneration policies meant that the application of a minimum wage would have a minor impact on Pick n Pay and Boxer. However, there would be an indirect cost impact across the value chain, with additional wage costs for certain suppliers and service providers. The impact will be countered by the additional discretionary spend for consumers, which is to be welcomed in tough economic times.

**LISTERIOSIS**

We continue to monitor the social and legal consequences of the listeriosis outbreak in South Africa.

**EFFECTIVENESS OF OUR INFORMATION SYSTEMS AND TECHNOLOGY**

The Board reviewed and updated the Group’s technology and information policy framework to ensure that our information security policy and privacy policy were current and reflected all relevant risks in our operating environment. The Board is cognisant of the increased risk of cyberattacks. The Board has endorsed ongoing investment in the development and maintenance of our IT infrastructure and security systems to guard against attack, protect the confidentiality of information and ensure the responsiveness and adequacy of recovery procedures.

**PEOPLE, CULTURE AND DIVERSITY**

**IMPACT OF A STATUTORY MINIMUM WAGE**

The Board assessed the impact of the introduction of a statutory minimum wage on 1 January 2019. The Group’s long-standing fair and responsible remuneration policies meant that the application of a minimum wage would have a minor impact on Pick n Pay and Boxer. However, there would be an indirect cost impact across the value chain, with additional wage costs for certain suppliers and service providers. The impact will be countered by the additional discretionary spend for consumers, which is to be welcomed in tough economic times.

**DIVERSITY**

The Board monitored the work being done by the Group to achieve a diverse workforce at all levels. Extensive analysis was undertaken to establish a workforce profile and relative pay, with the goal of ensuring that all employees receive fair pay for work done and that the Group remains anti-discriminatory in its recruitment and remuneration. While comprehensive statistical analysis is ongoing, the results are encouraging, with good evidence that pay rates are not skewed by gender or race. The Board will continue to focus on the adequacy of the measures in place to retain and upskill employment equity employees, particularly in senior executive roles, including the removal of any potential barriers to entry.

**FINANCIAL REPORTING**

**IFRS 16**

The Board will adopt IFRS 16 in its 2020 financial year. The Board discussed and reviewed the requirements of IFRS 16, which will see the Group’s extensive lease portfolio capitalised as “right-of-use assets” in the statement of financial position, with a corresponding lease liability in respect of future rental obligations. The Board appreciates that IFRS 16 will have a material impact on the Group’s financial position and its reported performance, including key performance metrics such as return on capital employed, earnings before interest, tax, depreciation and amortisation (EBITDA) and relevant gearing ratios. The Board supported the establishment of an IFRS 16 team within the Group’s finance division, assisted by external specialists, to deliver the implementation of IFRS 16. In the interests of transparency and clarity, the Board has agreed that IFRS 16 will be implemented on a fully retrospective basis, and that the Board would report the impact thereof to stakeholders as soon as practicable.

BOARD REPORT

BOARD FUNCTION
The Board supports the concept of materiality, which emphasises integrated reporting based on issues, risks and opportunities that could materially impact the performance of the business over the short, medium and long term.

The Board appoints the Executive Committee to run the Group on its behalf.

The CEO is responsible for:
- leading the implementation and execution of approved strategy, policy and operational planning
- serving as the chief link between management and the Board
- ensuring that the day-to-day business affairs of the Group are effectively managed.

The Group’s corporate governance charter sets out our executive formal role descriptions. Included in the written mandate are limits of authority, which set out those matters where the CEO has final authority and those requiring formal Board approval. Similarly, the CEO has set limits of authority for his executives to enable the effective exercise of authority and responsibilities.

EVALUATION OF PERFORMANCE
The Board conducts an annual evaluation of its contribution to the Group as well as the individual performance of each director.

Completed questionnaires are submitted to the Chairman, who conducts interviews with each member of the Board. The performance of the Chairman is assessed by the LID. Discussions centre on how the performance and effectiveness of the Board can be improved. Individual feedback is given to each director, and the Chairman gives general feedback to the Board.

Directors declare their directorships and commercial interests to the Company Secretary. These declarations are regularly updated, distributed quarterly to the Board and noted at Board meetings.

Transparency of commercial interests ensures that directors are free from any business or other relationship that may interfere materially with their capacity to act independently.

The Board balances the experience of long-serving directors with fresh insights from more recently appointed directors. All directors are strong-minded individuals and successful in their respective fields. They act independently and in the best interests of the Group. They have no interest, position, association or relationship that unduly influences or causes bias in decision-making relevant to the Group.

The Board is satisfied that the independent non-executive directors have met the criteria for independence as established by King IV, the Companies Act and the JSE Listings Requirements.

COMPANY SECRETARY
The Company Secretary assists the Board to fulfil its functions and is empowered by the Board to perform her duties. To manage the Board process, the Company Secretary, directly or indirectly:
- Assists with the induction of new directors
- Assists with director orientation, ongoing development and education
- Ensures that the Group complies with all relevant and applicable legislation
- Monitors the legal and regulatory environment and communicates to the Group on relevant legislation
- Provides the Board with a central source of guidance and assistance
- Acts as secretary for all Board committees

Directors have unlimited access to the Company Secretary’s advice and services. Available channels of communication include personal interaction, electronic communication and Board and committee meetings.

Based on the outcome of the Board’s annual formal assessment of the Company Secretary, the Board confirms that the Company Secretary has the qualifications, competence and expertise necessary for the role.

RISK GOVERNANCE
Risk governance and management are integral elements of the Group’s governance framework. The Group ensures that business-specific risks are adequately and timely identified and mitigated, whether they are operational, strategic or emerging risks, or risks posed by the external environment. The responsibility of designing, implementing and monitoring the risk management plan is delegated to management.

The Board is responsible for governing IT and reviews and approves related policies to set the direction for the Group’s use of IT. IT management is delegated to the CIO, who ensures that appropriate governance structures, systems and controls are implemented.

A privacy committee manages the Group’s response to the Protection of Personal Information Act. An information, risk and privacy office manages the Group’s ongoing information security and privacy programmes alongside management and business unit risk officers.

The Board confirms that the Group’s risk management, mitigation and monitoring processes were effective and limited the impact of risks on the business during the period.

For detail on the material risks and issues facing the Group, and how these inform the Group’s strategy, please read from page 32 of the 2019 IAR.

INFORMATION AND TECHNOLOGY (IT) GOVERNANCE
The Board is responsible for governing IT and reviews and approves related policies to set the direction for the Group’s use of IT. IT management is delegated to the CIO, who ensures that appropriate governance structures, systems and controls are implemented.

A privacy committee manages the Group’s response to the Protection of Personal Information Act. An information, risk and privacy office manages the Group’s ongoing information security and privacy programmes alongside management and business unit risk officers.

The Board exercises ongoing oversight of IT management practices via the audit, risk and compliance committee. The committee considers the efficiency of and developments in IT controls, policies and processes, as well as risk and resource optimisation. EXTERNAL AUDIT

Following a tender process, Ernst & Young Inc. (EY) was appointed as external auditor to the Group in July 2015, bringing their tenure to four years. The committee annually considers whether a tender process should be adopted to establish whether new external auditors should be appointed. The Independent Regulatory Board for Auditors’ (IRBA) rule on mandatory audit firm rotation was taken into consideration. In terms of the rule, it would be mandatory to rotate the external auditor firm in the financial period ended 2027. The committee concluded that a new tender process was not required in the 2020 financial period.

In terms of section 92 of the Companies Act, No 71 of 2008 as amended (the Act), the designated auditor of a company is required to be rotated after serving as a company’s auditor for five consecutive financial years. - Determined the fees to be paid to the external auditor, as well as the terms of engagement
- Assessed the competence of the designated audit partner

The Chief Finance Officer serves as the Chief Risk Officer for the Group and attends all audit, risk and compliance committee meetings by invitation. The day-to-day responsibility for identifying, evaluating and managing risk remains the responsibility of senior management, who are supported by the internal audit function. Currently, the combined assurance plan serves as the source for the Group’s top-down risk management programme. These risks are typically strategic and operational, and are quantified by the finance function, where relevant.

- Reviewed operational risks, in particular how they were managed
The committee has concluded that the current design of internal controls is effective and that the internal financial controls do not form a sound basis for the preparation of reliable financial statements. The committee believes that the directors have caused the directors to believe that the financial controls that could result in material financial loss, fraud, corruption or error. Through this process no material matter has come to the attention of the audit, risk and compliance committee or the Board that has caused the directors to believe that the Group’s system of internal controls and risk management is not effective or the Board that has caused the directors to believe that the financial function meet the Group’s requirements.

The committee has ensured that the Board is satisfied that Bakar Jakoet has the appropriate expertise and experience for the position of Chief Finance Officer of the Group. In addition, the committee is satisfied that the composition, experience and skills of the finance function meet the Group’s requirements.

All non-audit services provided by the Group’s external auditors are required to be pre-approved by the committee. The nature and extent of non-audit services provided by the external auditors has been reviewed to ensure that the fees for such services do not become so significant as to call into question their independence. During the period under review, EY received R0.4 million (2018: R0.8 million) equating to 4.3% (2018: 8.8%) of the total audit remuneration. These services related to agreed-upon procedures. All non-audit services undertaken during the 2019 financial period were approved in accordance with this policy.

THE ARRANGEMENTS IN PLACE FOR COMBINED ASSURANCE AND THE COMMITTEE’S VIEW ON ITS EFFECTIVENESS
The committee ensured that the combined assurance model addressed all significant risks facing the Group and monitored the relationship between external and internal assurance providers and the Group. The committee concluded that the arrangements in place for combined assurance were effective.

ANNUAL FINANCIAL STATEMENTS AND GOING CONCERN
Following review of the consolidated Group and separate Company annual financial statements for the financial period ended 3 March 2019, the committee is of the opinion that, in all material respects, the financial statements comply with IFRS and the Companies Act and that they fairly present the financial position of the Group and Company for the 2019 financial period and the results of the operations and cash flows for the period then ended.

In compliance with the requirements of King IV, an Integrated Annual Report will be compiled in 2019 in addition to these annual financial statements.

APPROVAL OF THE AUDIT, RISK AND COMPLIANCE COMMITTEE REPORT

SECTION 1: COMMITTEE CHAIRMAN’S REPORT

The remuneration committee is mandated by the Board to ensure our remuneration policy promotes the achievement of the Group’s strategic objectives in a fair and responsible way. A key objective is to ensure that the policy helps to deliver value creation over the short, medium and long term.

Our remuneration policy seeks to support the Group’s strategy, by incentivising behaviour that will deliver on our strategic plan, measured against clear performance targets across our seven business acceleration pillars. It is focused on pay and reward for the Board and senior management must be appropriate to attract, motivate and retain a winning team while aligning their interests with that of shareholders.

THE YEAR IN REVIEW

The economic climate became increasingly difficult in South Africa this year with retailers battling against stagnant economic growth and competing for a constrained consumer facing an escalating cost of living, high levels of household debt and rising levels of unemployment. Financial results across the sector testify to the fact that it has not been easy for retailers in South Africa to find growth in this environment. However, the Pick n Pay Group has done just that. The Group took difficult action last year to become leaner and more productive, with a view to invest the benefits of cost and efficiency savings in its customer offer in more difficult times. The steps taken last year were well timed, and allowed the Group to invest in a more competitive price position at a time when customers needed it the most. The Group is not only sharper on price. It has delivered solid and sustained progress against its long-term plan, delivering a stronger fresh and own brand offer, greater loyalty rewards, innovation in financial and other services, and an enhanced and expanded store estate focusing on delivering greater relevance to the communities it serves. Customers have responded positively to the tangible improvements in the Group’s offer, and have rewarded the Group through market share gains over the year, and strong like-for-like sales volume growth.

2019 FINANCIAL RESULT AND ANNUAL BONUS

The remuneration committee continues to exercise careful judgement, to ensure that its policies and expectations of performance remain relevant in a tough retail environment. In response to the more difficult macroeconomic climate, the committee revised its original FY19 growth targets published last year.

The Group follows a 52-week retail financial calendar, which requires the inclusion of an additional week every few years. The 2019 financial year included an additional 53rd trading week, and its results are not recounted since last year.

The growth targets set by the remuneration committee are on a comparable 52-week basis.

Primary targets for the award of a short-term incentive bonus:

<table>
<thead>
<tr>
<th>Growth in profit before tax and exceptional items (PBTAE)</th>
<th>Published last year</th>
<th>Revised</th>
</tr>
</thead>
<tbody>
<tr>
<td>Threshold</td>

</tr>
<tr>
<td>Target</td>
<td>20%</td>
<td>15%</td>
</tr>
<tr>
<td>Stretch</td>
<td>25%</td>
<td>20%</td>
</tr>
</tbody>
</table>

The Group delivered growth in profit before tax and exceptional items (PBTAE) of 16.6%, exceeding the remuneration committee’s threshold hurdle, for the award of a short-term incentive bonus.

Group profit growth was in line with the remuneration committee’s target. While the stretch hurdle of 20% was not met, the remuneration committee felt it right to appropriately reward the management team for their determined execution of a clear and customer-centric strategy, their delivery of an industry-leading trade performance, and the achievement of sustained earnings growth in an exceedingly tough market.

Senior executives were rewarded following an individual personal assessment of the attainment of individual key performance indicators, including progress delivered against long-term strategic objectives. Please refer to page 40 for further information on bonuses awarded to executive directors.

STABILITY OF LABOUR RELATIONS

The Group has secured three-year labour agreements with its major labour unions in South Africa. These agreements reflect encouraging levels of co-operation with our labour partners, and a commitment to work together for the future success and stability of our business, and for the security and benefit of our employees.

RETIREMENT OF OUR GROUP CFO

Bakar earned a new role as CFO over the coming months, after 34 years with the Group and eight years in the role. We extend our sincere thanks to Bakar for his outstanding contribution to the Group over a distinguished career, and particularly for his guidance and support over our challenging turnaround period. The Board, with the support of the nominations committee, is following a formal process to identify and appoint a successor. Bakar will stay on during this process and has offered his ongoing support through a handover period.

We look forward to Bakar playing a non-executive role in the business going forward.

Looking Ahead

The Group’s next focus on the objectives set out in its long-term plan is building a sustainable and future-fit business, to be able to respond to changing customer needs and industry trends. This creates exceptional and exciting opportunities for people looking to build a successful career in retail. We are strengthening a winning team, and with our focus on diversity, skills training and development, we are becoming an employer of choice within the retail industry. The remuneration committee will continue its work this year on employment equity, gender equality and pay parity across the Group and will continue to focus on talent management, retention and succession planning, including through the effective balance of short- and long-term incentives linked to the achievement of Group strategy.

Hugh Herman
Chairman: Remuneration committee
21 June 2019

PARITY OF REMUNERATION ACROSS GENDER AND RACE GROUPS

The Group is committed to fair and reasonable remuneration for all. Fixed and variable benefits are benchmarked against industry norms, and remuneration policies and strategies are to build a strong and diverse team, rewarded and advanced on merit. As a responsible corporate citizen, proud of our history and commitment to all our employees and being an ambassador for employment equity, we devote the necessary focus to important issues of employment equity, gender equality and pay parity. Comprehensive statistical analysis at all levels of remuneration is ongoing, with reference to the scale of each role and length of service, to identify and address any differential pay ratios based on race or gender. We have made strong progress on our employment equity and gender equity targets across the business, while acknowledging that there is more to do in our most senior roles. Our work in analysing pay to identify any differentials is ongoing. However, the initial findings are encouraging, with good evidence of gender pay parity at all levels across the business.

Our work in this area continues on a department-by-department basis, with the following commitments to our employees:

- We will take deliberate action to continue to improve the Group’s employment and gender equality, particularly at senior levels.
- We are equitable in our recruitment and remuneration.
- Colleagues will enjoy fair pay for work done – equal pay for equal work.
- Everybody will have the opportunity to progress in the Group.

REVIEW OF LONG-TERM SHARE INCENTIVE SCHEMES

The Group implemented its Forfeitable Share Plan (FSP) as a long-term incentive tool for its senior executive team in 2014. After five years, the remuneration committee felt it was timely to evaluate the success of the FSP scheme in meeting the long-term strategic objectives of the business, and to weigh up the merits of the scheme against other long-term employee incentive plans engaged across our industry. We engaged an independent expert to assist in our deliberations, and assessed a number of alternative schemes. After a comprehensive review, the remuneration committee elected to retain the structure of the FSP as it has been designed and operated, with the long-term executive, having provided a meaningful incentive for the delivery of long-term strategy, and has supported long-term value creation for all stakeholders. The remuneration committee will continue to assess the effectiveness and appropriateness of various share incentive schemes, and to continue to modernise incentive tools where appropriate.

STABILITY OF LABOUR RELATIONS

The Group has secured three-year labour agreements with its major labour unions in South Africa. These agreements reflect encouraging levels of co-operation with our labour partners, and a commitment to work together for the future success and stability of our business, and for the security and benefit of our employees.

Although independent expert advice is obtained as required, no external advisers attended the remuneration committee meetings during the year.

REMUNERATION REPORT (continued)

SECTION 2: OVERVIEW OF REMUNERATION POLICY

WHAT GUIDES OUR REMUNERATION

REMUNERATION PHILOSOPHY

Our remuneration philosophy is to develop and reward a diverse, high-performance team that delivers on our strategic objectives and creates sustainable value for all stakeholders over the short, medium and long term. Our remuneration philosophy reflects the following principles:

- Performance-driven reward: Staff are rewarded for creating and delivering sustainable value in line with our strategic objectives
- Meritocracy: Staff are recognised and advanced based on merit
- Most talented South African retail business: We attract, retain and develop the most talented staff in the retail industry
- Effective and lean organisation: We build a high-performance culture that rewards productivity and value creation
- Diversity: We offer equal opportunities to people from all walks of life and our team should reflect the communities we serve

REMUNERATION POLICY

The Group’s underlying remuneration policies support this philosophy through balanced reward that recognises the delivery of short-term performance goals, while incentivising sustainable value creation over the long term. The interests of our team are aligned with those of our shareholders through policies which include the following:

- Remuneration at all levels is benchmarked against the remuneration policies and practices of comparable companies locally and internationally;
- To ensure that it is fair and reasonable, and key or scarce skills are remunerated in the upper quartile of the market;
- Independent experts assist with remuneration benchmarking to ensure that remuneration decisions made are objective and fair;
- Remuneration is balanced between fixed remuneration and variable short- and long-term incentives, applying a higher proportion to junior management;
- Non-executive directors do not receive remuneration or incentive awards related to share price or corporate performance.

ALIGNING REMUNERATION WITH STRATEGY

The Group’s remuneration philosophy and policies are aligned with the strategic objectives of the Group. Short- and long-term incentives are linked to the achievement of key performance targets linked to strategic objectives, and will contribute to building a winning team and long-term, sustainable value creation in the business for all stakeholders.

- Sustainable HEPS growth over a rolling three-year period
- ROCE > WACC

- PBT margin at or above 3.0% over the medium term
FAIR AND RESPONSIBLE REMUNERATION

The remuneration committee reviewed the Group’s remuneration policies to ensure that executive directors’ remuneration is fair and reasonable in the context of overall employee remuneration, particularly given the socio-economic climate of South Africa and the South African retail industry.

The committee is satisfied that the Group’s remuneration policies, supported by strong underlying governance principles, ensure that levels of pay awarded to executive directors are set objectively and reasonably, and are free from discrimination, prejudice or favouritism. Executive pay is directly linked to the achievement of strategic objectives set out in the Group’s long-term plan, which are reflected in the performance targets set by the remuneration committee.

REMUNERATION STRUCTURE

The remuneration committee recognises its important role in ensuring that the Group’s remuneration policies support the Group’s strategic goals. And it also ensures that executive directors are remunerated fairly and for reasonable performance in line with industry benchmarks and shareholder expectations. The executive team will not be unduly rewarded where performance does not meet expectations. However, the committee will strive to find a fair and reasonable balance in order to retain key executives and attract quality executives from outside the business to ensure that the Group delivers on its strategic objectives.

FIXED BASE SALARY AND BENEFITS

The Group is committed to furthering the economic empowerment and well-being of employees and, as such, the provision of retirement and medical benefits is a key part of the remuneration policy.

Base salary

Annual base salaries, across all levels of the Group, are set at levels that are competitive with the rest of the market. This enables us to attract, motivate and retain the right calibre of diverse people to achieve the Group’s strategic business objectives. The fixed base salary reflects the relative skill, experience, contribution and performance of the individual. Remuneration is directly linked to formal annual performance assessments. Annual increases are determined with reference to the scope of the employee’s role, his/her competence and performance, the projected consumer price index and comparable increases in the general and retail market.

Retirement funding

It is a condition of employment that all employees, including variable-time employees, join one of the retirement funds provided by the Group. The Group contributes up to 8.7% of the individual employee’s salary towards retirement funding, depending on the fund and the terms and conditions of employment.

13th cheque

A 13th cheque is paid to qualifying employees in November each year. Variable-time employees participate based on the average number of hours worked in a month. Employees must have been in the employ of the Group for at least three months to be eligible to receive this benefit.

Motor vehicle benefit

Certain employees in middle management and above are entitled to a motor vehicle benefit. Depending on the requirements of their role, it may be in the form of a travel allowance or provision of a company car. This benefit may also include payment of maintenance, fuel and insurance.

Medical aid

Medical aid provisions are in place for all full-time, part-time and variable-time employees. We provide a number of medical aid schemes. Membership is compulsory for all employees at junior grade and above, unless they are covered by a third-party medical aid. Membership of the medical aids provided is optional for NMBU employees. We contribute 50% of medical aid contributions on behalf of employees.

1 Full-time employees have a fixed contract with the Group and work either 40 or 45 hours per week.

2 Part-time employees have a fixed contract with the Group and work a maximum of 25 hours per week.

3 Variable-time employees have a variable contract with the Group, which guarantees either 85 hours per month, or a maximum of 40 hours per week.

4 NMBU refers to our non-management bargaining unit.
REMUNERATION REPORT (continued)

LONG-TERM VARIABLE INCENTIVES

It is Group policy to maintain a broad-based share scheme for employees. This is an integral part of our remuneration philosophy and ensures that the long-term interests of staff are aligned with those of shareholders. The primary performance targets are long-term sustainable HEPS growth and share price appreciation. All levels of management can acquire Group shares, affording them the opportunity for economic upliftment, and it encourages employee retention. It is a key differentiator between the Group and other retail employers in South Africa.

The Group operates two share incentive schemes:

1. Share option scheme
2. Forfeitable share plan (FSP)

Funding of share incentive schemes

Shareholders have authorised the Board to utilise up to 63.9 million shares of Pick n Pay Stores Limited, representing 13% of issued share capital, for the purpose of managing the Group’s share schemes. Both the Group’s share schemes fall within this limit, which means the aggregate number of shares that can be awarded under both schemes cannot exceed the authorised limits.

The two share schemes are further constrained by an aggregate limit of 5% of the issued share capital of Pick n Pay Stores Limited, in respect of the amount of new shares that can be issued to cover obligations under the employee share schemes.

The Group issued 5 million shares during the year. The Group has cumulatively issued 57.7 million shares to date and is therefore able to issue a further 8.9 million shares or 18% of its issued share capital to fund future obligations under the share schemes.

The actual number of shares awarded takes into account turnover, stockholdings, shortfalls and waste.

1. SHARE OPTION SCHEME

The employee share option scheme (the scheme) facilitates broad employee share ownership, fosters trust and loyalty among employees, and rewards performance. The scheme incentivizes management and employees through the acquisition of Group shares, thereby aligning interests with shareholders and encouraging employee retention. Furthermore, binary share options incentivise senior management to achieve specified market-related performance targets.

During the 2019 financial year, 6.5 million Pick n Pay Stores Limited (PPK) options were issued to employees in respect of their progress and performance. A total of 278.5 million PPK share options were held by employees at year-end, amounting to 5.8% of shares in issue.

2. THE FORFEITABLE SHARE PLAN (FSP)

The FSP recognises key employees who have a significant role to play in delivering Group strategy and ensuring the growth and sustainability of the business in the future. The FSP incentivises participating employees to deliver earnings growth in the future. An award of shares may also be used to attract talented prospective employees.

The remuneration committee awards shares to participants. The actual number of shares awarded takes into account recognised market benchmarks, and each participant’s individual contribution to value creation, annual salary, employment grade and other relevant retention and attraction requirements.

The performance conditions are linked to the Group’s financial performance, with growth in headline earnings per share (HEPS) as the primary performance measure. Performance conditions are applied on a linear, rising scale, allowing for the vesting of an increasing number of shares, as earnings thresholds are met and exceeded. All growth thresholds are after recognising the applicable IFRS 2 share-based payments expense, which is charged to the income statement over the vesting period (other than on normal retirement, disability or death), all shares will be forfeited.

**SERVICE CONTRACTS**

Executive directors and senior management are employed in terms of the Group's standard contract of employment. They are only employed under fixed-term contracts under specific circumstances. Senior management personnel are required to give a reasonable notice period of their intention to terminate their services, which varies from one to 12 calendar months.

Employment contracts do not provide for any exceptional benefits or compensation on the termination of employment. Certain managers who are considered key in carrying out the Group's strategy are subject to contractual restraint of trade payments may be made in this regard.

The retirement age for all employees is 60 years. The Group’s strategy are subject to contractual restraint of trade benefits or compensation on the termination of employment. Non-executive directors do not receive performance-related bonuses and are not granted any share awards.

Non-executive director remuneration is not linked to the performance of the Group or the Group’s share price performance. Non-executive directors do not receive performance-related bonuses and are not granted any share awards.

When non-executive directors provide additional consultancy services to the Board and its committees, the related fees are determined and approved by the Board and shareholders. Approved fees are set for the annual financial period. Refer to page 41 for more detail on the proposed fees for 2020. Fees are not subject to attendance of meetings as attendance of Board meetings is generally good.

**REMUNERATION STRUCTURE: NON-EXECUTIVE DIRECTORS**

The remuneration committee proposes fees to be paid for the membership of the Board and Board committees. Such fees are market-related, commensurate with the time required for directors to undertake their duties and must be approved by the Board and shareholders. Approved fees are set for the annual financial period. Refer to page 41 for more detail on the proposed fees for 2020. Fees are not subject to attendance of meetings as attendance of Board meetings is generally good.
The remuneration committee has set new and appropriate targets for the 2020 financial period, based on a comparable 52-week financial calendar, which include over-arching primary short-term PBTAE growth targets of 8% for threshold, 12% for target and 15% for stretch.

REVIEWING THE GROUP’S SHARE OPTION INCENTIVE SCHEME, ITS ALIGNMENT TO LONG-TERM STRATEGY AND ALLOCATIONS TO EXECUTIVE DIRECTORS

The remuneration committee undertook a detailed review of all the share options held by the executive directors, including all the service and performance conditions attached. No new share options were granted to executive directors during the year.

The remuneration committee asked the Group’s senior executive team to perform a comprehensive performance review of its middle-management structures (levels C and D) to identify those employees who were considered top performers and would be important contributors to the future success of the business. Recognising the importance of rewarding and retaining the future leaders of the business, the remuneration committee issued 2.1 million “top-up” performance share options to 112 employees. Individual awards reflected the scale of each position and the performance of each employee, with varying terms over three, five and seven years.

REVIEWING THE GROUP’S FORFEITABLE SHARE PLAN – SETTING APPROPRIATE PERFORMANCE CONDITIONS AND ALLOCATING FORFEITABLE SHARES TO EXECUTIVE DIRECTORS AND QUALIFYING SENIOR MANAGEMENT

The remuneration committee agreed an annual award of forfeitable shares to senior management personnel, to ensure executives continue to have competitive and market-related long-term incentives in place to drive delivery of the long-term strategy. The FSP provides the Group with added security over the retention and tenure of key executives. The remuneration committee set the financial performance conditions to be attached to the June 2018 award (FSP 5) and agreed on the 121 participants and the level at which each would participate, with particular focus on allocations to executive directors. For further information, refer to page 39 this report.

\* Above inflation increases were agreed for the Chairman and members of the audit, risk and compliance committee, and for the Chairman of the remuneration committee in recognition of the scale of the roles and the increased level of compliance and regulation in these areas.

1 The Chairman of the nominations committee is the Chairman of the Board and does not receive an additional fee for chairing this committee.

2 The Chairman of the social and ethics committee is an executive director and does not receive an additional fee for chairing this committee.

3 The corporate finance committee is an ad hoc committee. The fees payable are determined in relation to the number of meetings held during the financial period, but will not be more than the annual proposed fee. No formal meetings were held during the 2019 financial period, and therefore no fees were paid.

4 Historically, no fee was paid to members of the corporate governance committee. This anomaly has been corrected. The Chairman of the corporate governance committee is Chairman of the Board and does not receive an additional fee for chairing this committee.

* Executive directors no longer receive fees for attending board meetings.
** During the prior period, the Group did not meet the required performance measures set by the remuneration committee for the payment of a short-term annual bonus. However, the remuneration committee acknowledged that certain important strategic steps were taken during the comparative period to drive sustainable performance, but which had a negative impact on short-term profitability. The remuneration committee recognised the strategic action taken and progress delivered through the payment of an ex gratia award to executive directors and senior management.
* A gratuity of R10.0 million was granted to Bakar Jakoet on his retirement, in appreciation of his outstanding contribution to the Group over his 34-year career.
* The expense of the long-term share awards is determined in accordance with IFRS 2 Share-based Payments. The fair value is measured at grant date and the cost of the awards granted is spread over the period during which the employees become unconditionally entitled to the awards (the vesting period).

* Lorato Phalatse resigned as a director of Pick n Pay Stores Limited on 31 August 2018.

In setting the Chairman’s proposed annual fee of R4.6 million, the remuneration committee (Gareth Ackerman recused himself from the discussion) considered the active role he plays in the corporate governance of the Group and in formulating overarching strategy for the individual companies within the Group. Gareth does not play a day-to-day role in the executive management and administration of the business but does make himself available to the executive team in an advisory capacity.

The expense of the long-term share awards is determined in accordance with IFRS 2 Share-based Payments. The fair value is measured at grant date and the cost of the awards granted is spread over the period during which the employees become unconditionally entitled to the awards (the vesting period). The amounts in the column represent the current year’s charge, as recorded in the statement of comprehensive income and statement of changes in equity. The long-term share awards will vest in the future only if all the criteria set out on pages 38 to 39 are met.

During the prior period, the Group did not meet the required performance measures set by the remuneration committee for the payment of a short-term annual bonus. However, the remuneration committee acknowledged that certain important strategic steps were taken during the comparative period to drive sustainable performance, but which had a negative impact on short-term profitability. The remuneration committee recognised the strategic action taken and progress delivered through the payment of an ex gratia award to executive directors and senior management.

The remuneration committee has been approved by the Board and will be submitted to shareholders for consideration at the AGM to be held on 30 July 2019.

This report and the recommendations of the remuneration committee have been approved by the Board and will be submitted to shareholders for consideration at the AGM to be held on 30 July 2019.

### OUR GOVERNANCE

#### THE ROLE OF THE COMMITTEE AND WHAT THE COMMITTEE FOXCUSED ON DURING THE YEAR

The social and ethics committee operates in accordance with the requirements of the Companies Act and King IV and is governed by a Board-approved charter, which is reviewed and approved annually by the Board.

Guidelines for the committee include the anti-corruption practices of the Organisation for Economic Co-operation and Development (OECD), the Employment Equity Act, as well as elements of the Johannesburg Stock Exchange Socially Responsible Index criteria and the Broad-Based Black Economic Empowerment Act.

The committee met three times during the period to review performance in the following areas, as required by the Companies Act:

- Animal practices
- Anti-corruption practices
- Consumer safety
- Employee welfare and relations
- Ethical business practice
- Legislative compliance
- Responsible sourcing
- Social and environmental responsibility
- Transformation

The committee monitored the Group’s activities in relation to relevant policies, legislation and regulation and best practice in corporate governance.

Among other issues, the meetings dealt with key topics such as the plastics and packaging reduction programme, updates to the anti-bribery and corruption (ABC) policy and the gifts policy, updates to the whistleblowing policy, risks arising from use of email and the internet as well as cyber-crime, and measures taken to ensure that the company respects the intellectual property of suppliers and prospective suppliers. The status of the national water supply, and specifically water supply in the Western Cape, continued to be monitored.

The committee confirms that no material issues were identified during the period. In accordance with its charter, the committee effectively discharged its statutory duties and responsibilities over the period.

#### COMMITTEE MEMBERSHIP

The resignation of Lorato Phalatse, an independent non-executive director, on 31 August 2018 led to an adjustment of membership, with a non-executive director being appointed to take the position with effect from 11 February 2019. As at the end of the 2019 financial period, the committee members include an executive director and two non-executive directors, as well as the Company Secretary, executives responsible for strategy and human resources, senior management and technical experts on areas of mandate. All levels and areas of expertise across the Group are represented on the committee. Additional advisers attend meetings by invitation, depending on agenda items to be discussed.

Suzanne Ackerman-Berman
Chairman: Social and ethics committee
21 June 2019

The committee’s objective is to ensure that high ethical standards are applied in all areas of the business, and to review and approve the policy, strategy and structure for managing the social issues in the Group in accordance with our long-standing principle that “doing good is good business”. 
LEGAL REPORT

COMPLIANCE

The compliance framework rests on the Group’s comprehensive set of policies. Statutory developments are continuously monitored, and the compliance regime is regularly updated to reflect governance best practice and the evolving regulatory environment. All employees and companies in the Group are obliged to comply with these policies.

In order to monitor compliance with statutes and regulations that have a bearing on the retail industry, questionnaires based on relevant statutes are distributed bi-annually to departments.

Compliance questionnaires perform the dual function of monitoring compliance and educating employees on the requirements of statutory and regulatory compliance in the retail sector. Employees are trained in sessions dealing with important legal issues arising from statutory provisions. Current areas of focus include the Protection of Personal Information Act, the Consumer Protection Act and suggested amendments to the Competition Act and the Companies Act, as well as the communication of the Group’s Code of Ethics. Training sessions were conducted with employees regarding intellectual property rights, as protected by the Trade Marks Act and the Copyright Act.

The compliance questionnaires are audited internally to ensure accurate reporting. Management self-assessment is being implemented.

We adopted an updated anti-bribery and corruption (ABC) policy outlining the Group’s commitment to combating corruption, bribery and anti-competitive collusion. The ABC policy is aimed at ensuring the maintenance of our standards and behaviours in accordance with our long-standing ethical principles.

No judgements, damages, penalties or fines for non-compliance with any legislation were recorded or levied against any company in the Group, or against any director, officer or employee during the period under review.

Each year, the executive directors and relevant members of senior management declare that to the best of their knowledge, they and the companies they serve have complied with all relevant statutes and regulations. No incidents of contravention of the policies or the statutes were reported.

LITIGATION MATTERS

The Company and its subsidiaries are not involved, and have not in the 2019 financial period been involved in any legal or arbitration proceedings which may have or have had a material effect on the financial position of the Group, nor is the Company aware of any such proceedings that are pending or threatened.

COMPETITION COMMISSION

The terms of reference for the Competition Commission’s market inquiry into the grocery retail sector were announced in November 2015. The Competition Commission released its preliminary findings on 29 May 2019, indicating that it believes there is a combination of features in the grocery retail sector that may be preventing, distorting or restricting competition and, ultimately, adversely affecting consumers and households. Their focus, among other things, includes:

1. The impact (negative and positive effects) of the entry of national supermarket chains into townships, peri-urban areas and rural areas and the informal economy.
2. The impact of long-term exclusive lease agreements and the role of financiers.
3. Regulations and by-laws as a barrier to entry and expansion in the sector.
4. The impact of buyer groups and buyer power of purchasers of fast-moving consumer goods on competition in the sector.

Pick n Pay believes that the existing structure of the South African grocery retail sector is competitive and dynamic, and to the benefit of consumers. The growth of large-scale grocery retail benefits families through access to safe and affordable food. Furthermore, Pick n Pay believes that the expansion of formal retailers into townships and other areas is good for consumers and has not inhibited a thriving informal and independent sector. Small, independent stores play an important role alongside major retailers.

The growth of the formal sector also benefits the economy through providing secure jobs, formal training, compliance with food safety and other standards, as well as increasing resources through taxation of the formal sector.

The Company actively supports small businesses, for example, through our purchasing and supply chain practices, as well as through the Ackerman Pick n Pay Foundation.

Pick n Pay believes that no anti-competitive behaviour exists in relation to long-term exclusive lease agreements, which have over many years given developers and retailers the confidence to invest and serve customers better.

Directors’ responsibility statement

The directors, whose names appear from page 12, collectively and individually accept full responsibility for the accuracy of the information pertaining to this special resolution and certify that, to the best of their knowledge and belief, there are no facts that have been omitted that would make any statements false or misleading, and that all reasonable enquiries to ascertain such facts have been made and that this special resolution contains all information required by law and the JSE Listings Requirements.

Material changes

Other than the facts and developments reported on in terms hereof and in the integrated annual report, there have been no material changes in the financial or trading position of the Company.

Share capital and major shareholders

Shareholders are referred to pages 52 and 53.

Reason for and effect of special resolution number 3

The reason for special resolution number 3 is to grant the Company a general authority in terms of the JSE Listings Requirements for the acquisition by the Company or any of its subsidiaries of shares issued by the Company, which authority shall be valid until the earlier of the next AGM of the Company or the variation or revocation of such general authority by special resolution by any subsequent general meeting of the Company, provided that the general authority shall only be valid until the Company’s next AGM, or for 15 (fifteen) months from the date of passing of this special resolution, whichever period is shorter. The passing of this special resolution will have the effect of authorising the Company or any of its subsidiaries to acquire shares issued by the Company.

The Board will exercise this resolution to buy back shares from employees who are exercising their share options, and to cover share scheme obligations, including the forfeitable share plan.

Other than as set out above, the Board has no specific intention, at present, for the Company to repurchase any of its shares, but confirms that such a general authority should be put in place should an opportunity present itself to do so during the year, which the Board deems to be in the best interests of the Company and its shareholders, taking prevailing market conditions and other factors into account.

Directors’ authority to implement special and ordinary resolutions

“RESOLVED that each and every director of the Company be and is hereby authorised to do all such things and sign all such documents as may be necessary for, or incidental to, the implementation of the resolutions passed at this meeting.”
